

CHILD Phone contract

I understand that my cell phone is a privilege.

My password is _____.

I will make sure my parents know my password at all times. If I change my password without telling my parents my phone privileges will be taken away for one week.

If I lose my phone privileges I will not beg, nag or ask for my phone back until it the appropriate time.

IF my parents feel during that time I NEED my phone for an event or my safety, I understand that my parents will make that decision AND they will decide when and then I am to give it back at the time designated by my parents. This does not mean that I can try to convince them I need it due to safety or an event. This means that if we as parents on our own give it back during the time it is taken away, it will be at our discretion and times will be predetermined as to when the phone will be issued and returned.

I will NEVER turn off the "find My iPhone" or ANY locator setting on my phone again. All controls are at my parent's discretion. If I turn off a feature without my parent's permission, I will lose my phone privileges for 1 week.

I can NOT download any app that my parents do not approve FIRST! I must also agree that if the account has a password that I MUST give that password to both of my parents. ALL password rules stated above apply here as well. This applies to KIK, Instagram, twitter, Itunes and ALL apps that contain a password.

The purpose of this is to keep me safe. I understand this and agree to follow the above rules at ALL times.

My parents love me very much and that is why there are rules.

Child Signature _____

I understand that it says "child" signature to remind me that I am NOT an adult and that is why I have parents! Amen!
